- (10) The building is so damaged, decayed, dilapidated, structurally unsafe, or of such fault construction or unstable foundation that partial or complete collapse is possible;
- (11) The building has parts thereof which are so attached that they may fall and damage property or injure the public or the occupants;
- (12) The building, or any portion thereof, is clearly unsafe for its use or occupancy;
- (13) The building is neglected, damaged, dilapidated, unsecured, or abandoned so as to become an attractive nuisance to children who might play in or on the building, structure, part of building or structure, party wall, or foundation to their danger, has become a harbor for vagrants, criminals, or immoral persons, or enables persons to resort to the building, structure, part of building or structure, party wall, or foundation for committing a nuisance or an unlawful act;
- (14) The building has a portion remaining on a site after the demolition or destruction of the same or is abandoned so as to constitute such building, structure, part of building or structure, party wall, or foundation as an attractive nuisance or hazard to the public; and

(15) The building is, because of its condition, unsafe, unsanitary, or dangerous to the life, health, property, morals, safety, or general welfare of the public or the occupants.

3. The Appropriate Municipal Official finds that the building on the Subject Property is fifty (50) percent damaged or decayed, or deteriorated from its original value or structure.

4. The Appropriate Municipal Official finds that the building on the Subject Property cannot be repaired so that it will no longer exist in violation of the terms of Ordinance No. 1022.

5. The Appropriate Municipal Official finds that the building on the Subject Property is a fire hazard existing in violation of the terms of Ordinance No. 1022.

6. The Appropriate Municipal Official finds that the building on the Subject Property is in such condition as to make it dangerous to the life, health, property, morals, safety, or general welfare of the public or the occupants.

7. The Appropriate Municipal Official finds that the building on the Subject Property is in imminent danger of structural collapse endangering human life or health.
